Our "Soccer Season Project"

Language Immersion and Soccer in Spain

How about spending a season **playing soccer in Spain?**

In this country where **La Liga** is considered as one of the best major leagues in Europe and worldwide, you will be **trained to soccer** in the best possible way.

Rigor, tactics and accomplishment are the key words; that is certainly why the Spanish soccer structure is so successful and attracts the best international players.

Going to Spain to both **study and play soccer** is also the opportunity to discover the culture of a warm country, embodied by both the weather and the people.

The **total immersion** in a soccer club in a foreign country is a great opportunity to experience soccer and life far from their daily life. It gives the players a chance to improve their soccer level (thanks to highly qualified coaches) and to **learn/improve a foreign language** in an uncommon way.

It is really a life experience that boosts the open-mindedness, by meeting foreign people, understanding a foreign culture and making lasting memories. **Sport is one of the best ways to bring people together**, by sharing the same passion and playing together.

Players will keep pursuing their secondary education while playing soccer, by going to a **local high school or university**. Furthermore, they will stay at a local family's house, carefully chosen by our company, to receive support and affection, making them **feel at home**.
